Wrapping up the Season

2017 was an amazing year at Wildridge. We were able to see older improvements on the lots remodeled or replaced making a very positive appeal to our community. Several new members this year, and a warm welcome to them. It's actually amazing to see the new members come in, and within no time find themselves engulfed in one of the largest families in Southern Indiana.

We have an awesome Social Committee and member support that has done an amazing job throughout the whole season. From new playground equipment to amazing band performances at the shelter house, awesome meals and activities for those of all ages to enjoy, and a good time to be had by all.

Here is wishing you and your family the best of the holiday season. As we look forward to a new year filled with laughter and good times here at the ridge, we thank all who have helped to make our park a great place to be. Hope everyone has a safe and happy holiday season.

FACEBOOK

Wildridge Addicts is our social media connection to keep members informed of events and needed information. Wildridge Addict Ads is available to advertise lots, boats, etc. for sale. Please be courteous and tasteful when utilizing these sites. Negative input and directed remarks toward others results in not being beneficial to anyone. If you have a concern, the board meetings are for discussing issues that exist and need attention. We want our park to be the best it can be. We are all here by choice, board members are volunteers who are interested in working together to achieve what is best for the park as a whole. If you are concerned about matters in the park, come to board meetings and become involved. Consider serving time on the board of directors yourself.

SPRING 2018 CLEAN UP

Last season we asked that you make any necessary clean up and repairs to your lot. Although there have been many improvements in the park, there are still some properties that badly need attention. Please be aware that it is the leaseholder's responsibility to maintain all buildings on your lot in a clean, painted and orderly appearance. Drainage ditches should be mowed, maintained and free of debris to allow water to drain freely. Failure to do so obstructs drainage, and redirects the drainage onto others causing erosion. If you have questions on rules and requirements, please refer to the rules and regulations or contact the manager. Failure to follow rules and regulations may result in fines up to and including legal action. Working together is the most effective way to resolve issues and improve our park.
